ITEM NO.	DESCRIPTION	QTY.
1	TIP	1
2	SPARK ARRESTOR	1

## PLEASE READ BEFORE STARTING INSTALLATION

While MBRP Ltd. has made every effort to ensure that all components of this system are of superior quality and properly packaged, it is the installer's responsibility to ensure the following before removal of the factory exhaust:

- that ALL components shown above are present.
- that ALL mating components fit together.
- that there are no damaged components.
- that the system you have purchased is appropriate for your vehicle year, model and configuration.
- that the system will not interfere with any modifications previously installed or planned.
- that you have read and understand these instructions.

If you have any questions or are uncertain about any aspect of the installation of this system to your vehicle please contact your dealer before commencing installation.

Figure 2

## Removal of Stock Tip:

1. Remove the two (2) screws securing the heat shield to the muffler outlet and then remove the shield.
2. Remove the three (3) nuts and washers securing the stock muffler outlet and then remove the outlet. Do not discard the hardware as it will be reused.

## Installation of MBRP Tip:

1. Place the new **Spark Arrestor** into the outlet of the muffler. Refer to **Figure 1**.

2. Install the **Tip** onto the three (3) studs at the muffler outlet, and then secure it tightly using the stock washers and nuts. Refer to **Figure 2**.

**It is recommended that the muffler outlet nuts be retightened after the first ride and checked periodically thereafter, tightening if necessary.**

*Note: In order to maintain optimal performance, the spark arrestor screens should be cleaned after every 30-35 hours of use.*

**Congratulations!** You are ready to begin experiencing the improved performance and driving excitement of your **MBRP** ATV Exhaust upgrade. We know you will enjoy your purchase.
